Q4. **Please provide your postal address:** not answered

Q5. **Please provide your comments on proposed Amendment C241:**

I first suggested this to Whitehorse Council at least 10 years ago after I found that a friend of mine proposed this to Bayside City Council and managed to get it accepted. It had been used for about 5 years by them to fund recreational, sporting, leisure and other amenities for the enjoyment of their growing community. It is important to understand that this type of fund is used to balance an increased population caused by development of high rise buildings, numerous former school sites, large sites like the Burwood Brickworks, the Australian Tesselated Tile Co in Mitcham, Australian Road Research Board in Vermont South and others. All these sites have vastly increased the population of Whitehorse without any improvements to the amenities in Whitehorse. In fact, this increased population has put a lot of pressure on the available amenities within Whitehorse. Indeed, with the demise of 17 schools within Whitehorse, all their ovals, and gymnasiums that were available to the people and clubs within Whitehorse were lost. More than 20 ovals within Whitehorse were lost to the detriment of the cricket and football clubs that were using them. In fact, only one school site was saved for the Whitehorse community, the Nunawading Primary school site. That took 4 years of campaigning by the "Save Nunawading Primary Site" group to persuade the very reluctant Whitehorse Council to purchase the site for use by the Whitehorse Community. In fact' at the very first meeting when the Whitehorse Council was asked to buy the site, we were told by the then mayor that the Council would not be buying the site because 88 Town Houses were going to be built there. When someone in the audience asked him how he knew that before it had been decided what would happen with the site, the meeting was closed down. It needs to be stated in amendment C241 how money raised will be allocated. For instance, landscaping in the local park to make it more enjoyable for the leisure of users should fall within the amendment, but streetscaping a shopping centre should fall entirely within the council's responsibility to cover costs from their rates. Funding of a new toilet for a sports club should be covered by C241, whereas a new toilet at a council childcare centre or shopping centre would not. Unless it is clearly stated in the Amendment C241 how these funds will be spent now and into the future, then use of the fund will be open to manipulation and rorting into the future and will not be fit for purpose.

- Street seating needed not horrid wooden things that deteriorate from the dry inserted. Arty cement: brick versions. A bit like Brunswick st Fitzroy.

-
- Q5. **Please provide your comments on proposed Amendment C241:**
- When considering future sporting and parkland infrastructure please include facilities for NETBALL. This is an inclusive team sport widely played throughout the metropolitan area. At the moment there are no central court facilities for matches and netball players need to travel a long way for competitions in other council areas. In parks hoops and line markings are provided for other sports. NETBALL rings would be popular for informal games and skills practise.

- Q5. **Please provide your comments on proposed Amendment C241:**
Stop approving skyscrapers in Box Hill. It's ruining Box Hill and creating over congestion on roads
