

Attachment 2 - Areas of reform as part of the Smart Planning program

| Area of reform | Change | Time frame |
|--|--|---|
| Digital Systems | | |
| Planning Scheme Amendment Information System (PSIMS) | Planning schemes to be online via a planning portal. | 2018 |
| Online Amendments | Streamline the planning scheme amendment process via an online system. | 2018 |
| Victorian Planning Portal | A single point of entry to all Victoria planning information and services. | Available now, with further enhancements in 2018. |
| Permit Online | An online system for processing state planning permit applications, will allow a quicker and more transparent process. | Early-to-mid 2018. |
| Property dashboard | A basic search tool to obtain a range of data on a single property. | Early 2018 |
| VicPlan – Zones & Overlays | A map viewer for access to zone and overlay information will also generate planning scheme information and an interactive property report. | Available now, with further enhancements in early 2018. |
| Rules and policy | | |
| SPPF (State Planning Policy Framework) | Improvements to allow the SPPF and LPPF (Local Planning Policy Framework) to be used together more easily. | Early 2018 |
| VPP (Victoria Planning Provisions) | Simplify the VPP to make planning processes more efficient and effective. | Consultation late 2017, delivery early-to-mid 2018. |
| VicSmart | Expand VicSmart to reduce processing times for planning permit applications. | Complete (introduced mid-2017) |
