## FEEDBACK RECEIVED FROM THE WHITEHORSE SPORT AND RECREATION NETWORK

<b>Clause 4.3</b>	<b>Proposed Change:</b> Tenant Clubs (both senior and junior) are to be invoiced for finals use rather than the Association (e.g. Eastern Football League).
Combined response.	<p>Network members recommend the entity applying for finals is invoiced for the finals use.</p> <ul style="list-style-type: none"> <li>- This provides flexibility for Officers to invoice either the Association or the Tenant Club depending on who submits the application;</li> <li>- Network member’s suggestion Officers highlight who pays the invoice as part of the application process prior to the finals season.</li> </ul>
<b>Clause 5.3.4</b>	<b>Proposed Change</b> A tenant Club requiring additional use of a sports field will be charged a pro-rata seasonal fee. Previously, a casual fee was applied
Combined response	<p>The network had the following discussion on this change:</p> <ul style="list-style-type: none"> <li>- Could be a flat casual fee for tenant clubs across the board instead of pro-rata of the seasonal fee;</li> <li>- Need to define pro-rata – is this based on impact of the facility or a total cost;</li> <li>- If this proposed change is endorsed as part of the draft SFG, Officers will need to determine what the pro rata definition is.</li> </ul>
<b>Clause 5.8</b>	<b>Proposed Change:</b> Applications for casual use of sports pavilions is directed to Council in the first instance rather than the tenant Club.
Combined response.	Network Members agree that Applications for casual use of sports pavilion is directed to Council in the first instance rather than the tenant club.
<b>Clause 6.2.9.1</b>	<b>Proposed Change</b> Council does not support permanent “reserve fencing” at any new sites for the purpose of the Tenant Club collecting a ‘gate’ from spectators, due to the ongoing maintenance costs and the perception of the public’s access to the open space.
Combined response.	<p>The network had the following discussion on this change:</p> <ul style="list-style-type: none"> <li>- This will be site specific;</li> <li>- Some fencing is considered to be satisfactory with a control point;</li> <li>- No fencing at the whole reserve makes it difficult for clubs to charge a gate fee;</li> <li>- The network were overall comfortable with permanent fencing clause.</li> </ul>
<b>Clause 7.2.2</b>	<b>Proposed Change</b>

	Council will consider requests for consumption of alcohol outside the pavilion. Sporting fields which already have consumption outside the pavilion will be supported. For sporting fields which do not have consumption outside the pavilion approved, Council will consider on a case by case basis. If supported, consumption outside the pavilion will not exceed the times listed in table 8.
Combined response.	<p>The network had the following discussion on this change:</p> <ul style="list-style-type: none"> <li>- The wording “case by case basis” puts Officers in a difficult position to assess applications;</li> <li>- Consider listing the framework used to assess applications in the SFG for clubs to apply against;</li> <li>- Keep times as in table 8 with an addition that this is subject to site specific considerations including the effect on the amenity;</li> <li>- The network thought in areas within close proximity to residents 10pm would be a suitable cut off time for outside alcohol consumption to consider both summer and winter tenant use.</li> </ul>
<b>Clause 7.6</b>	<p><b>Proposed Change</b> The Tenant Club will be responsible for the appropriate disposal of Trade Waste.</p>
Combined response.	<p>The network had the following discussion on this change:</p> <ul style="list-style-type: none"> <li>- Estimates cost per annum per site was \$579;</li> <li>- The cost would be split between the summer and winter tenants;</li> <li>- Network members thought this cost was not excessive and there is a responsibility to dispose of waste properly;</li> <li>- The Network support this clause.</li> </ul>
